Crazy Gang Entertainment has been running since June 2001. I pride myself on teaching all ages with a variety of modern line dance in an energetic and fun way that's suitable for all.

### **What Is Line Dancing?**

Line dancing simply put is a form of social dance that requires no partner. Groups of people come together on a dance floor and dance side by side in lines to a pre choreographed repeating routine.

### **What is the music and dance style?**

The music and dance styles for line dancing are not bound to any specific genre. It embraces country, latin, ballroom, pop to name but a few. The same applies to it's dance genres, it utilises cha, cha cha, swing, waltz, two step and even mambo and samba, again to name but a few.

**When arriving, Please Look out for our logo and follow signage to the Dance Studio.**

Please wear sensible flat shoes with as little grip as possible. You will get hot dancing so don't be overdressed. We recommend you bring a drink.
